SUMMARY

Software Engineer with 1.5+ years of experience building and maintaining responsive, production web applications using React.js, Next.js, TypeScript, and Node.js. Skilled across the stack in component-based architecture, state management with Redux and React Hooks, REST API integration, and performance optimization. Ships clean, maintainable, cross-browser code in Agile/Scrum teams.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript

Frontend: React.js, Next.js, Redux, Component-Based Architecture, HTML5, CSS3

Mobile: React Native

Backend: Node.js, Express.js, REST APIs, Authentication, API Error Handling

Databases: MongoDB

Styling/UI: Material UI, Tailwind CSS, Bootstrap, SCSS, Responsive Design

Tools: Git, GitHub, npm, Yarn

Deployment: Vercel, Netlify

Methodologies: Agile, Scrum, Performance Optimization

PROFESSIONAL EXPERIENCE

Technyx Systems | Karachi, Pakistan

Software Engineer, January 2025 – Present

- Refactor legacy React codebases to improve performance, maintainability, and cross-browser compatibility across production web applications.
- Harden applications with defensive validation and API error handling, improving app stability while preserving developer experience (DX).
- Develop and ship production features using React.js and Redux, building 20+ reusable, responsive UI components with Bootstrap and CSS for consistent design.
- Drive requirements analysis, sprint planning, and story grooming to align frontend delivery with business goals.

Software Engineer Intern, July – December 2024

- Supported UI development tasks and contributed to 2 live client projects, including peer code review.

Square Tech | Karachi, Pakistan

Backend Developer Intern, April – June 2024

- Built a REST API with Node.js and Express for a mobile event-management app, covering authentication, data models, and route handlers.
- Implemented user authentication and core MongoDB data models for events and bookings, exposing basic CRUD route handlers.

PROJECTS

Experience Abu Dhabi | React.js, Next.js, Material UI | December 2024 – Present

- Migrating a legacy React v16 codebase to Next.js, improving performance and long-term maintainability without disrupting the existing stack.
- Revamped the full UI and integrated 4+ REST API endpoints, improving stability through defensive validation and error handling.

E-Learning Platform | Next.js | October 2024 – December 2024

- Designed 3+ reusable, responsive UI components ensuring visual consistency and translating design requirements into clean, component-based code.

EDUCATION

B.S. Computer Science – University of Karachi | February 2022 – February 2026

Intermediate (Pre-Engineering) – Govt. DJ Science College, Karachi | September 2019 – August 2021

CERTIFICATIONS

Claude Code in Action – Anthropic | April 2026

Certified Web & Mobile Application Developer – SMIT | November 2023
